Thinking Out Loud

(By H. M. L.)

The graduate, college or high school, still has the notion that the "world is my oyster." But judging from the talks given by five speakers at the commencement exercises last Thursday evening, they suspect the oyster is a bit stale, not to say tainted. Those young people have an inkling, at least, of the task that confronts them. Standing on the platform these young Davids selected five smooth pebbles and hurled them at the massive, brutal brow of Goliath.

When all is said, this Goliath is really nothing but ignorance, born of hatreds, bred to war, and come to power. In different guises he reigns in different countries, but the effect of his rule is the same. The headsman cuts off liberty in one country, the firing squad murders free speech in another, the garotte strangles public opinion in another. Goliath has come to power. A formidable and tremendous foe our youngsters are tackling, yet enough smooth pebbles coming from slings of a great army of graduates in this country, can turn the trick. England, America, and possibly France, must carry the torch through catastrophic years to come, and the youth of these countries will be the torch bearers. It is not for nothing that the educated youth of England and the United States are banding against war as never before in history.

Included in the Rivers and Harbors bill, approved by the house committee, is the item of $6,945,000, recommended by the United States Board of Engineers for the erection of the four debris dams on the Yuba, Bear and American rivers. Dreams do sometimes come true, when backed by determined men. Fifty years ago, hydraulic mining was given its death blow in the Sawyer decision. But the gold is there still, and perhaps will prove more useful now than half a century ago.

In the main we have Harry Englebright to thank for giving the gold districts of California another chance at the oriferous gravels. He has had some sturdy helpers but his was the generalship that first got the hearing, ordered by Congress, before the California Debris commission and then when its report proved unfavorable secured a reversal of its conclusions in the United States Board of Engineers. Every citizen of this county should write Harry Englebright and thank him for the hundreds of thousands of dollars that will flow into Nevada County as a result of that victory.

At the moment, that is to say during the past year, which after all is only a moment in history. The energies and finances of the city council and city officials have been centered largely in the development of the municipal park and the swimming pool. This was done because of the fact that the city had been awarded a $16,000 SERA project, and in order that this sum paid by Federal authorities for labor might be properly utilized, it was imperative that the city provide the necessary materials. As a result of this condition, which is temporary, the council has wisely deferred other improvements in so far as they were able, in order to take full advantage of the SERA park allotment.

Occasionally one hears the complaint that the streets are being neglected in order that we may have a beautiful park, or that something else in municipal housekeeping suffers from lack of attention, while the park moves forward. We have little sympathy with these plaints. As a matter of fact the municipal pool will greatly benefit most of the children in this community. It has been coming to them for ten years. It was long overdue when it was finally built. We submit that, if it really came to a choice, healthful development, healthful recreation for the youth of Nevada City is more important than the city's streets. But we are not obliged to make that choice. The streets will be cared for in due time.

WOMAN'S CIVIC CLUB MEETS THIS EVENING

The Nevada City Woman's Civic Club will hold its last meeting of the season tonight at the Brand Studio, at 8 p. m. All members are urged to attend as important business will be transacted.

Nearly 200 Average Daily at Swim Pool

The following schedule of opening and closing the municipal swimming pool has been adopted for the present. The baths will be open daily from 11 a. m. in the morning until 8 p. m. in the evening, except between 5:15 and 6:15 daily, when the pool will be closed for one hour. This will be the daily schedule except on Monday evening, when the pool will be closed at 5 p. m. to permit emptying and cleaning, and will then not reopen until 1 o'clock on Tuesday afternoon, this to enable the pool to be refilled and other necessary work to be performed.

Free instruction for children will begin next week at 10 o'clock in the morning. This work will be done by the life guard, Addison Janes, and by his Red Cross life saving assistants. Between 10 and 11 o'clock there will be classes for instruction of young people and adults for which a fee will be charged. Individual swimming lessons will be given for a fee of 50 cents per lesson, and for classes, ten in a class, ten cents for each member of the class.

Attendance in the first days, since the pool opened, has averaged nearly 200. On Friday, an especially warm day there were 250 who enjoyed the big pool. As the summer advances and warms up Janes believes attendance will be greatly increased.

The park commission on Saturday evening awarded to Merle Coulter, the highest bidder, the ice cream, candy and soft drink concession. Coulter graduated from the high school last Thursday and has immediately gone into business for himself.

Mrs. Mabel Flindt, who generously offered to give a two hour story period once a week at the municipal park, for the children today announced that the first story period will begin Wednesday at 1:30 o'clock until 2:30 for children of pre-school age up to the fifth grade. The following will be occupied by stories for children from the fifth grade and above.

This is really the first step forward toward giving the recreational facilities of the municipal park a wider scope, embracing one of the primary activities of children's playgrounds.

CHAMBER WILL PLAN AIRPORT DEDICATION

The Nevada City Chamber of Commerce will meet tomorrow (Tuesday) evening at 8 o'clock. The membership is urged to be present as two important matters are to be discussed. Dedication of Nevada City's airport will be considered and Nevada City's part in the joint Grass Valley-Nevada City Fourth of July celebration.

WARREN CHAPMAN IS APPOINTED TO WEST POINT

Warren Chapman of Nevada City, received a telegram Sunday evening stating "Educational certificate view West Point approved unconditionally. Report to Letterman General Hospital, Presidio, San Francisco, Calif., for physical examination on June 12." If he passes this examination he is to report at the academy on July first.

Congress passed a bill recently allowing an extra appointment for each Congressman which took effect at once. The applicant usually has six months time to report, but owing to this being passed to take effect immediately young Chapman has less than a month's time in which to report.

Warren Chapman, son of Dr. and Mrs. C. W. Chapman of Nevada City is a graduate of both the grammar and high schools of this city. He attended University of California in Berkeley one year, and took a four months course in Drews College in San Francisco.

ONE MAN IN JAIL; ONE IN MORGUE

Richard Henry Williams, 24 years of age of Dutch Flat, is being held in the Nevada County jail after an auto accident last night on the Colfax highway last evening, and Russell Miller, aged 20 years, is in the morgue.

According to information received Miller and his father, of Grass Valley, had parked their car and were assisting in pulling another car out of the ditch at the roadside. According to information gathered by the sheriff's office, when young Miller saw a car approaching he tried to flag it down with his flashlight. It is alleged the oncoming car struck the parked car, damaging it and killing Miller. A wheel was taken off the Williams car bringing it to a stop in short order.

STREET REPAIR GOES FORWARD IN NEV. CITY

The new, modern asphalt heater purchased by the city recently, was put into use Wednesday and many repairs were made on Aristocracy Hill and Nevada street. The heater holds 60 gallons of asphalt oil, heated by an oil blast which heats in thirty to fifty minutes. The old method was with wood and took several hours to heat the asphalt.

Street Superintendent H. H. Hallett has also had men employed in repairing the city's rock crushing plant out at the Hoge mine dump. Bob Hathaway supervised the reconditioning. It consists of crusher, screen, elevator, bin, bin for loading, and is operated by electricity.

As it is hot weather now the officials of Nevada City are preparing to make a lot of repairs on the streets.

This addition is one story high and will be 20x100 feet giving space for the supervisors room and an additional space for the county clerk's office.

This morning drills were brought into use as the granite ledges were unearthed. The new wing is to be of concrete with steel reinforcements.

FOREST SERVICE TO BUILD BRIDGE ON MIDDLE FORK

From the Tahoe National Forest headquarters it is learned that a crew will start work on the McKillikan bridge on the Middle Fork of the Yuba River which lies between the Plumbago mine and Bloomfield or Orleans Flat. The bridge, which will be 92 feet long, of steel with concrete abutments, is to replace the Middle Fork bridge that washed out a few years ago.

A surveying crew is to survey the old McKillikan grade leading to the bridge preparatory to reconstructing the grade to a standard road.

School Is Out

(Contributed)

For thousands of young men and women in California, school is out, now, forever.

Graduation exercises throughout the state during the past fortnight have sent throngs of them into the battle of life on their own. The sequestered peace, the carefree joyousness is gone, and they are left to face the discondant music of a maladjusted world.

Bleak as the prospect is, however, it is not without heartening aspects. These youths have only to look back on the plight of those who were graduated in 1932 and 1933 to know that it could be much worse.

Industry may not yet be ready to absorb them, but it has speeded up considerably since the dark days of mid-depression; unemployment is on the wane in California, and more than one economist is predicting the greatest American "boom" man has ever known. Unquestionably, better times are on the way.

It will remain for these youths to shape the future of California and the nation. Among the ever-shifting confusion of social theories and governmental hypotheses, will they choose to remain individuals in a democracy or to become a colorless mass, watched over and cared for by a paternal government?

The former course will be open, in spite of the extremes in social security legislation (which in a limited degree may be beneficial), that some people are demanding.

Instead of a guarantee of a bare living, by decree, these young people may rely on their own energy and ingenuity for an abundant living.

These youths just beginning to come to grips with life's realities will probably choose democracy and individualism. After all, the heritage that the pioneers left to California cannot have faded so soon.

Mr. and Mrs. Fred E. Conner of this city spent the week end in Sacramento visiting with their friend, Mrs. F. E. Radcliff.

'RUGGLES OF RED GAP' AND 'THE IRON DUKE' AT NEVADA THEATRE

Mary Boland and Charles Ruggles will be featured again in another famous comedy, "Ruggles of Red Gap" which comes to the Nevada Theatre tonight and Tuesday. They will support Charles Laughton, who plays the part of the perfect English butler, whom a pair of tourists had won in a poker game in Europe and took home to show up some four flushers in their home town of Red Gap. Roland Young, ZaSu Pitts, and Leila Hyams are also in the cast. There will be a matinee on Tuesday at 2:15.

Both stage and screen players of intenational reputation play were provided for Mr. George Arliss, as Wellington, in "The Iron Duke," which comes to the Nevada Theatre Wednesday and Thursday nights. It is a historical drama of outstanding excellence. The famous Battle of Waterloo is shown in entirety on the screen, and also the shooting of Marshall Ney, the famous French general. George Arliss gives a remarkable portrayal of the human side of Duke Wellington, not only a hero of the battlefield, but the ballroom as well. There will be a matinee on Thursday, at 2:15.

NATIVE OF GOODYEARS BAR PASSES

Interment of John Nicholl, a native of Goodyear's Bar, Sierra county, aged 75 years old was held in Stockton. Mr. Nicholl passed away in Stockton on June 2.

Judge H. B. Dow, a former resident, came down from Seattle, Washington, and is spending a few days in Nevada City on business. He now is interested in insurance offices in Seattle and Bremerton. Upon his trip home he will be accompanied by his mother, Mrs. M. Ivan Dow who will visit him for a time.

Miss Gertrude Marriott came up from San Francisco Wednesday and is spending a two weeks vacation in Nevada City with her parents, Mr. and Mrs. J. B. Marriott. She is in her senior year at St. Mary's hospital and will graduate at Christmas time.

FIRST OF A SERIES

LIKE CLIMBING A GRADE . . . . . with a slipping clutch

Ever have a clutch go back on you? Maddening, isn't it? You plod along—motor racing, fairly eating up gas. But that's a mild example of wasted power. You know what's wrong, and have it fixed. Sometimes power losses aren't so easy to see. That's when they're dangerous.

Take a pumping plant: the heaviest power user on the average farm; a major item of operating expense; a deciding factor, in many cases, between profit and loss..

Does a pump give you warning when it begins to waste power? No! With a pump, you've got to *look* for trouble. Some of the smoothest running plants are power wasters of the worst kind.

There are symptoms, however, that tell you when your pump is "sick." And they're easy to see *if* you look for them.

First, you'll notice it takes you longer to irrigate. Then, with an increase in pumping hours, your power costs will go up.

Ultimately, you'll be paying more for wasted power than it would cost you to recondition your plant.

Be on the lookout for these symptoms. If you see them, get in touch with us promptly and arrange for a thorough test.

A test costs money, to be sure. But not a penny of this cost is charged to you. The only payment we accept is customer good-will.

Remember—if you don't know; *don't guess!* Simply call our local office and we'll test your entire plant—FREE.

SOCIAL EVENTS

Virginia Lee Day Weds Clyde Browning

Miss Virginia Lee Day and Mr. Clyde Randell Browning were united in wedlock at the Trinity Episcopal church on Saturday morning at 11 o'clock, amidst a group of relatives and friends.

Before the ceremony Mrs. Bosworth sang "O Promise Me" and "I Love You Truly." As the bridal party entered the church the wedding march was softly played.

The bride is the daughter of Mr. and Mrs. Lee M. Day and a graduate of the class of '35. The groom is a son of Mr. and Mrs. Arno Browning, of French Corral, and is employed by the Ace Sheet Metal Works in Grass Valley.

The bride was gowned in white satin made on princess lines and wore a waist length veil crowned with white pearls. The maid of honor, Miss Irene Browning, sister of the groom, wore a pink silk net formal trimmed in blue and a pink net hat to match. The bridesmaids were Misses Dolly Jefferson and Margaret Thomas, they were gowned in the popular shirtmaker formals made of rose beige lace. Miss Jefferson wore hers over orchid satin and Miss Thomas' was over nile green satin, both bridesmaids wore large picture hats to match their gowns. The bride's lovely bouquet was of mixed bridal flowers and her attendants carrie pink sweet peas.

The groom was attended by Mr. Chester Peterson as best man. Mr. Harry Jefferson and Mr. Harry Browning were ushers.

A reception was held at Pythian Castle, where a buffet luncheon was served. In the center of the table was a decorated birthday cake in honor of the groom's twenty-first birthday that day. On a table at the end of the hall was a three tiered wedding cake beautifully decorated in silver and white.

The bridal party gave the happy couple a noisy "send off" as far as the outskirts of Grass Valley as they left on a motor trip for an unknown honeymoon.
